

Armor & Item Guide

- The following is a list of all armor and usable items/potions.
- NOTE:** In average difficulty, the defense points, strength values, agility values, and stat boosts are often higher than what is listed here. Likewise, some of these values are lower for Lunatic difficulty. These values most closely match Veteran and insane difficulties. However, immunities, bonuses, and GP costs are the same across the board.
- NOTE #2:** Post-game inventory is at the very bottom of the document in a "Spoiler" section.
